Procurement of a direct solar radiation measurement system

The University of Patras initiated a project through a Tender, to install a system that measures direct solar radiation. EnviroSys was invited to participate to the Tender.

EKO Beyond Accuracy.

Instruments: STR-22G Sun Tracker, MS-80 Pyranometer, MS-57 Pyrheliometer

Collaborators: Enviro-sys

Measured Parameters: Direct solar radiation

Field: Solar Resource Assessment

Installation Date: 22.02.2022

Plant Poser/Size: -

Location: Greece
